OFFICER'S COMMUNICATIONS.

The following opinion of the Corporation Counsel was presented, received, and on motion of Alderman Shawda, laid upon the table.

To the Honorable the Board of Aldermen of Jersey City:

GENTLEMEN—In answer to the first inquiry contained in your resolution passed at your meeting held June 14th inst., to wit: Whether the Jersey City Electric Light Company or any other Electric Light Company, can lawfully set poles or string wires about the streets to supply electric light to customers, without first obtaining the consent of the City authorities? I respectfully advise you that the law gives to companies of this character the right to the use of public streets, avenues, etc., provided, however, that no post or pole shall be erected in any street of any incorporated city, without first obtaining from the incorporated city a designation of the streets in which the same shall be placed and the manner of placing the same.

Application for such designation of streets should in this city be made to your Board by virtue of the 24th section of the charter, which gives to your Board the power "to regulate the use of streets," etc., and your power over the subject of this inquiry ceases with your designation of the streets wherein poles are to be set up, and your seeing that such posts or poles are so located as in no way to interfere with the safety or convenience of the public travel. The stretching of wires upon poles over or across the streets, unless the wires are so low or otherwise so hung as to interfere with the full and unobstructed use of the streets, does not impose such an additional servitude as requires special legislative authority, and probably not even the consent of your body. If, however, the wires are so stretched as to interfere with the public use of the streets, your Board can order their removal as a public nuisance.

In reply to your second inquiry, "as to whether a contract made with the Board of Police Commissioners to furnish street lights can be construed as a consent of the city authorities to set such poles and string wires about the streets for such street lighting, &c.?" I advise you that the cognizance and control of the lighting of streets and public places was transferred to the Board of Police Commissioners, together with all property then in use therefor, by the act of 1874. That Board has still control of that subject.

The carrying out of the objects of such a

company by present methods necessitates the erection of poles and the use of wires, and as a condition precedent to engaging in the avowed business of such company, the law, as I have stated, requires such company to procure from said city a designation of the streets to be used by said company for the erection of its posts, &c. For some reason which does not appear, the company in question erected its poles, hung its wires upon them and engaged in business without first procuring from your Board a designation of the streets as required by the law. All this was done without the city in any way interfering with them. The company, therefore, finding itself in the unmolested possession of the streets, and in the undisturbable prosecution of its business, entered into a contract with the city through the proper Board of the City Government to furnish light to said city and is now in the actual fulfillment and performance of its part of said contract. I do not see how the rights which this company has thus acquired can now be disturbed. It is now too late to correct any errors or omissions attending the erection of the poles of this company though if its poles are so located as to be a public obstruction, your Board can regulate the subject by having them so placed as that they will not interfere with the safety or convenience of public travel.

The city has stood by and seen the work of this company go forward, involving large expenditures of money and resulting in the establishment of a valuable plant and in recognition of, and as if to emphasize the legal existence of this company, here the city entered into a large and important contract with it, which contract is now being performed. It would be manifestly unjust now after this long acquiescence, and under these circumstances, to permit the city to allege the illegality of the company's status. The city must be regarded as estopped from raising the question of "consent" so far as it affects the present legal existence of this company. This company should have been originally required to obtain from you a designation of the streets to be occupied; and before other similar companies are allowed to do business here, your Board should insist upon their obtaining from your Board a particular designation of the streets to be used as the law requires.

Very respectfully,

JOSEPH A. BLAIR,
Corporation Counsel.

Dated June 20, 1887.

MISCELLANEOUS BUSINESS.

On motion of Alderman Reardon the Board proceeded to the appointment of a Constable from the Second District to fill the vacancy caused by the resignation of Bernard McGinniss and to serve for his unexpired term.

Patrick McGinniss was nominated by the same alderman.

On motion of Alderman Davis, the President was directed to cast one ballot for all the members.

The ballot was cast.

Alderman O'Neill acted as Teller, and Patrick McGinniss was declared appointed a Constable from the Second District to fill the vacancy caused by the resignation of Bernard McGinniss and to serve for his unexpired term.

The following preamble and resolutions were offered by Alderman Reardon:

Whereas, It is vouchsafed to few members of the human family as it has been to Queen Victoria of England to rule over a great and powerful nation for the term of 50 years and

Whereas, The opportunity is seldom granted to any member of the human race of doing so much to alleviate the suffering of stricken humanity, and to bind up the wounds of those who have fallen by the wayside as has been granted to the Queen of Great Britain and Ireland and Empress of India, during her long reign of half a century, but

Whereas, The period of Queen Victoria's reign has brought to her subjects both in Ireland, India and Scotland, not that peace, prosperity and happiness which might be expected from the beneficial sway of a true, tender-hearted and loving woman, but on the contrary it has been for those under her sway a period of famine, during which millions of human beings perished for want of food in the fruitful soil of India and Ireland, cruel and heartrending evictions have taken place in Ireland and Scotland, thousands have been done to death for daring to love the land of their birth and attempting to raise it from the degradation and misery into which it had been plunged during Victoria's reign, and

Whereas, According to statistics published by an eminent English writer, 1,500,000 have died of famine in Ireland, 3,668,000 have been evicted from their homes, 4,200,000 have been driven into exile, 57,000 have died of ship fever on their way from Ireland to Canada and the United States, 3,000 Irish patriots have been imprisoned under Coercion Acts, and 53 such acts have received her sanction, and even now seemingly with her full consent; and during the octave of her Jubilee day, her parliament is engaged in passing the most brutal act of tyranny and oppression ever proposed by the government of any civilized nation to crush out the liberties of the Irish people, be it therefore

Resolved, That while we admire her as a good and faithful wife and mother, we deeply regret to say, that we find nothing in her public career as Queen of Great Britain and Ireland, and Empress of India upon which to congratulate her and be it further

Resolved, That we will be most happy to congratulate Queen Victoria, when we hear that she has used her influence with her ministry in trying to remedy the grievances from which the people of Scotland, Wales and India are suffering, and

when she restores to Ireland the rights of which she was robbed under the administration of Pitt and Castlereagh by infamous fraud and brazen and open corruption. The right to make her own laws on Irish soil.

The preamble and resolutions were adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President:

Yeas—All the members present.—Eleven in number.

The following preamble and resolution were offered by Alderman Prigge:

Whereas by an ordinance passed April 20, 1887, the Pavonia Horse Railroad Company were authorized to lay a double track in Ninth street, from Monmouth street west to the former city line, and

Whereas such consent was granted for the better convenience of the public, but is at present rendered nugatory, because but one track is laid and travel is not at all facilitated,

Resolved, That the Pavonia Horse Railroad be notified that unless said double tracks be laid within a reasonable time and better facilities afforded the traveling public, the consent granted by said ordinances of April 20, 1887, will be repealed and track ordered removed. After some discussion the preamble and resolution were adopted and on motion of Alderman Reardon the clerk was directed to notify the company.

The following preamble and resolutions were offered by Alderman Marinus and adopted:

Whereas, the ordinance passed January 9, 1879, requires every licensed peddler to fasten upon either side of the vehicle used by him

Resolved, That the Committee on Trade Licenses are hereby authorized to procure not exceeding six hundred plates for peddlers' vehicles at a cost not to exceed ten cents each, the expense to be met out of the appropriation for Printing, Stationery and Supplies, and to be repaid by the collection from each licensed peddler of the cost of the plates, such collection to be made by the City Clerk and paid into the City Treasury to the credit of said appropriation.

Resolved, That the plates to be furnished shall correspond in size with those used during the past year.

The following resolution was offered by Alderman Elliott, and adopted:

Resolved, That the Board of Public Works be earnestly requested to ask the Board of Finance and Taxation to make an appropriation to erect steps at the foot of Laidlaw avenue to enable people to pass up and over city property, extending from Hoboken avenue to Palisade avenue, midway between Newark avenue and Franklin street, as such construction will very greatly accommodate the public at very little expense.

OFFICERS COMMUNICATIONS.

A copy of a resolution adopted by the Board of Finance and Taxation June 30, 1887, and approved by the Mayor July 1, 1887, concurring in the resolution adopted by the Board of Aldermen, June 28, 1887, directing that application be made to the Circuit Court of the County of Hudson, July 23, 1887, for the appointment of Commissioners of adjustment under chapter 112 of the laws of 1886, concerning the settlement and collection of unpaid taxes, &c., was presented, received and ordered filed.

The report of the Inspector of Buildings for the month of June, 1887 was presented, received and ordered filed.

The following opinion from the Corporation Counsel was presented, received and ordered filed.

To the Honorable Board of Aldermen of Jersey City:

GENTLEMEN—In reply to the questions submitted to me embodied in your resolution passed at your last meeting, I answer respectfully as follows:

To your first inquiry, to wit: whether said Company (the Jersey City Electric Light Company) in addition to its poles now erected has the right to erect any new poles without first obtaining a designation of the streets from this Board? I respectfully answer that it has not.

To your second inquiry, whether said Company has the right to maintain its present poles indefinitely, or only during the continuance of its present contract for lighting the streets made through the Board of Police Commissioners? I reply that it has a right to maintain its present poles, as long as it is actually employed in the business authorized by its articles of association.

To your third inquiry, to wit: whether said Company has the right to use said poles and maintain its system through the streets of

this city to supply private consumers without consent of this board? I respectfully answer, it has.

To your fourth inquiry, to wit: whether any telephone or telegraph company has the right to erect poles in any of the streets of this city for any electrical purposes whatever, without first obtaining a designation of such streets from this Board? I reply that the erection of poles for any purposes by any company using them must be upon streets designated by your Board.

To your fifth inquiry, to wit: whether any distinction can be made in favor of any poles erected by such telephone and telegraph company whereon the wires connect with the fire alarm service have been or may be strung, and if so, to what extent. I respectfully reply, that no poles can be erected for any purpose except upon designated streets. When poles are once legally erected, they cannot be removed or disturbed except upon the ground that they interfere with the public use of the street, or are a nuisance in some other respect; in such cases, the Board of Aldermen has power to act. If such poles contain wires connected with the fire alarm service, as a matter of precaution and public safety, the Board of Fire Commissioners should be consulted before such poles are removed or disturbed.

Very respectfully,
JOHN A. BLAIR,
Corporation Counsel.

July 11, 1887.

OFFICER'S COMMUNICATIONS.

The City Clerk laid before the Board the

following communication from His Honor the Mayor, filed in the City Clerk's office on the 25th inst., and the same was read, received and ordered to be entered in the minutes.

MAYOR'S OFFICE,
JERSEY CITY, July 25, 1887. }

To the Board of Aldermen:

GENTLEMEN—An ordinance for the relief of Richard Rule, etc., is herewith returned with my objection. The title of the ordinance is deceptive. It is not for the purpose of enabling Richard Rule to construct a porch as it states but for the purpose of enabling him to construct a two-story bay window that extends out four feet in a narrow street.

A remonstrance has been presented to me which is signed by property owners in the neighborhood in which they justly complain of the encroachment, and I am satisfied by personal inspection that it ought not to be sanctioned.

It forms a bad precedent, and I am the more impressed with the need of putting a stop to these encroachments now while we may, because the only argument the architect used to persuade me to sign the ordinance was that others had encroached on the streets by similar projections. It should be an extreme case that should induce the restraining power to sanction such a projection. No such case can be pleaded in this instance. The architect has justified on me and states that the owner will fight for the right and will put out the projection if it costs him a thousand dollars, etc., etc. The city can hardly afford to grant such privileges under threats, even if it would otherwise.

Very respectfully,

Your Obedient Servant,
ORESTES CLEVELAND

Accompanying said message was a remonstrance of John A. Engel and others.

The Committee on Streets, to whom was referred July 26, 1887, the petition of R. M. Jarvis and others for the granting of permission to the Western Union Telegraph Co. to erect poles and wires from Point of Rocks, at Pennsylvania Railroad, through Factory or Fremont street to Montgomery street to Bergen avenue, to Lyon & Zeigler's drug store, presented an adverse report, therein setting forth that while the committee recognizes the fact that this petition is signed by very many prominent citizens of the Fifth district, yet in their judgment the petitioners should have first applied to the Telegraph Co., and they in turn to the Board of Aldermen; that an application by the company would place it before the Board in proper attitude and amenable to present existing ordinances.

The City Clerk laid before the Board the following letter received from the Corporation Counsel:

KEENE VALLEY, N. Y., Aug. 25th.

JOHN E. SCOTT, ESQ., City Clerk:

DEAR SIR—I am just in receipt of your communication respecting the action of the Board of Aldermen in the matter of the purchase of the Wood and Hall ballot-boxes. I respectfully advise the committee to whom the matter is now referred that the law requires the Board of Aldermen to purchase the boxes necessary for the use of the city; and that such requirement is mandatory, and the Board has no option in the matter. No reason presents itself to my mind against the legality of the law, and the Board must act accordingly. The Act directs that these boxes shall be purchased by the first day of

September. I regard this as simply directory, as fixing some arbitrary time for their procurement, so as to make certain their use at the November election. It is not peremptory that they be purchased by September 1, and their purchase later will be legal, but to make sure that the intention of the law is not defeated these boxes should be purchased at the Board's earliest opportunity. I will not be present at the committee meeting on the 29th, and I therefore ask you to kindly present these my views to the Committee on Elections at its meeting on the 29th inst.

Respectfully,

JOHN A. BLAIR,

Corporation Counsel.

The Committee on Elections, through Alderman Elliott, its Chairman, verbally reported that the committee have not ordered the boxes, the resolution authorizing the purchase not having been finally acted on by the Mayor.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from his Honor, the Mayor, filed in the City Clerk's Office, Aug. 10, 1887, and the same was read, received and ordered to be entered in the minutes.

MAYOR'S OFFICE.

JERSEY CITY, N. J., August 10, 1887. }

To the Board of Aldermen:

GENTLEMEN—It is with great reluctance that I return without my signature, a resolution of your Board, rescinding the forme

resolutions that granted permission for wooden awnings and signs to be erected and maintained on the north side of Newark avenue, between Warren and Henderson streets. In a question of this kind, where your Board has given the subject full and careful consideration, I should hesitate to interpose my personal views against the deliberate decision of your Honorable body. But, in the present instance, I am sure that if the matter had been fully considered and both sides heard, you would not have passed the resolution in its present form.

In order to learn the wishes of those directly interested, and to have before me such reasons for and against as they might advance so that I might give the matter that careful consideration to which it was justly entitled, I gave a public hearing and had notice of the same given several days beforehand in the newspapers. At the hearing, very few persons appeared who were in favor of the sweeping character of the resolution, but many of the most prominent property owners interested, as well as their tenants appeared, and gave such reasons why the resolution should not be put in operation in its present form, that I am constrained to withhold my signature. If there are individual cases where an awning should be removed, your Board could withdraw the permit in those cases, but the resolution under consideration requires that every wooden awning on that line shall be removed, and this in many cases would work great damage to the merchants who are struggling to keep trade in Jersey City that used to go to New York, but which by a plentiful and attractive display of wares has lately been more and more drawn home. It is the opinion of many of these merchants that if they are deprived of the advantage of such a display they will lose much of that trade. That is the side of the street that requires to be shielded most from the sun, and they cannot display their wares unless protected from the damage of exposure to the sun. For these reasons and many others that will occur to you on reflection I return the resolution.

Very respectfully,

Your obedient servant,

ORESTES CLEVELAND.

On motion of Alderman Reardon, ex-Aldermen G. D. Van Reipen and W. J. McAlvanah, were invited to seats within the railing. Alderman O'Rourke moved: "That at the next regular meeting, the Board will hear all parties interested in the removal of awnings, etc., from Newark avenue, and that the clerk be directed to give notice thereof, in the daily papers."

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from His Honor the Mayor, filed in the City Clerk's office on the 1st inst., at 10 o'clock a. m., and the same was read, received, and on motion of Alderman Reardon, ordered to be entered in the minutes:

MAYOR'S OFFICE,

JERSEY CITY, N. J., Sept. 30, 1887.

To the Board of Aldermen:

Gentlemen—I herewith return an ordinance entitled, "An ordinance designating certain streets, &c.," to the use of the Jersey City Electric Light Company, without my signature.

This is the most extraordinary ordinance I ever had the honor to consider.

It seems to me impossible that your Honorable Body should have given its singular provisions much thought.

It gives up every prominent street in this city to this company, so that it may set its poles anywhere and everywhere without any restraint whatever, provided they go into the ground four and a half feet and rise above it at least twenty-five feet.

There is no word requiring the dangerous and death-dealing wires to be strung above the heads of those passing along the sidewalk. I am sure you have not thought of this. Under this ordinance the wires may be strung all about the city in front of any dwelling or business place so low down as to be an obstruction to the free use of property, like an enormous, unsightly spider web, but a thousand times more dangerous.

They are instant death to those who touch them under certain conditions unskillfully, and they set fire to wood-work so frequently that insurance companies inspect the work for safety when the wires are introduced or attached to buildings.

It is not long since a man was instantly killed on the Bowery, New York, by taking hold of the wires, and yet you allow, by this ordinance, these wires to be strung within the reach of the school children as they pass along.

I know it will be said by the company that the poles are to be at least twenty-five feet above the ground, &c., but companies and engineers, calculating, cunning experts in the use of language.

The poles are not wires, and the company in preparing this ordinance have weighed every word. There is not one word, from beginning to end, about how high or low, or where or when, nor how numerous the wires are to be strung. The poles and wires are for all electric lighting and uses.

That means that the poles may be as high as fifty feet high if they choose to set them, and may be used for telegraph, telephone or power purposes, as the sweet will or interests of the Jersey City Electric Light Company may develop.

I am certain your Board cannot have intended to grant any such enormous and unstrained power to this company, nor would you to any company.

Telegraph, telephone and other uses are electric "uses" in the meaning of this ordinance, and this company may string telegraph wires by hundreds or thousands and rent them to telegraph and telephone, or other companies that cannot get the direct grant from your Board to set poles and string wires through all of the principal streets. The last part of section 3 grants a very singular power.

It starts out with a pretence of restricting the power of the company, but ends as all laws prepared by the Counsel of these corporations end, by giving absolute power to do about as they please.

At present, your Board has power to bring to punishment any person who injures a tree, even the property owner, in front of whose premises it stands, cannot trim it or cut it without consent of your honorable body, but the last words of this section are so well arranged for the fraud, that they give the company power to cut and carve the trees to their heart's content, if but the "owner" consents.

This was intended to enable the company to buy off the lot owners, and then destroy trees at their pleasure.

The corporations have been ingenious in seizing upon pretty much everything tangible within the city limits.

They have taken rights and privileges from citizens without even the form of law. They have taken whole streets to the extent of more than a million dollars of value within my recollection without a dollar of compensation. They have spread their dust and cinders upon our roofs and set fire to our buildings.

They shriek through the town nights till they destroy all comfort of persons and reduce the value of property, but it would seem to me that they might leave the shade trees that are more to be prized now.

They are the pride of the well-to-do and the comfort of the poor, and I am sure your honorable body did not intend to grant the right to destroy them.

But the most curious of the many brick-a-brac provisions of this wonderful ordinance is section 5. That section authorizes the company to lay pipes or conduits, leaving it free to lay whatever it pleases, however unsafe or outrageous, and to "lay wires therein."

For what purpose the wires are to be used, there is not a word to show in the whole section, nor in the title to the ordinance.

It is patent to everybody that the time is near at hand when all electric wires, for whatever purpose, must go under ground.

But your Honorable Body certainly did not intend to constitute this Electric Light Company a speculative company to possess the right to burrow under all the principal streets with pipes, or other "conduits" not for electric lighting, but for renting out to other companies for all the various uses that wires may be put to. It does not say that these wires shall be used for lighting, nor that they shall be even wires belonging to this company, and what is worse, the pipes or other conduits need not even belong to this company, but this company is given the right to "lay pipes or conduits" for anybody and everybody to use.

This company is afraid your Honorable Body will, as in duty bound, compel the placing of their own electric light wires under ground within a very short time, and so they have imposed upon your Honorable Body in the language used.

Like a previous section I have called up for your consideration, this section grants enormous and unheard of power while pretending to be innocent.

You have now the power to pass an ordinance requiring that all wires shall be placed under ground, but this section takes that power out of your hands entirely, so far as this Electric Light Company is concerned, and virtually states that they may place their wires under ground when "they may deem necessary." Will they ever deem it necessary? Never, until they can sell for other purposes the use of their pipes or conduits under our streets, or until they can get some other company to lay the pipes or conduits and give the Electric Light Company the use of them free, so far as they may need them. In other words, you give the whole matter of laying pipes or conduits for wires under ground to this company for all uses, the right to be exercised whenever they see fit or never. Is that a wise exercise of the powers and the duties that devolve upon you as a part of the city government? Every principal street can be run up for any distance in one direction and both sides of the street at the same time, there being no restriction as to the number of these pipes or conduits to be laid in the same street. There is no requirement that pavements shall be relaid at all, nor that they shall be well relaid, nor that they shall be kept in order afterwards for a reasonable time, nor that unaved streets shall be repaired to their original condition. There are absolutely no restrictions whatever in regard to the streets. Sections 5 and 7 seek to take the control of the surface of the streets from the Board of Public Works, where it is placed by the charter. It is a doubtful attempt. Sections 6 and 9 require the pipes or conduits to be kept three feet away from any water or gas main, but there is not a word about the sewers or sewer pipes.

The company may for convenience in many streets, lay their complicated arrangements directly over the sewers and along side of the manholes, so that the sewers cannot be repaired without great difficulty.

Is the omission of all these proper safeguards intentional? I am afraid so. I cannot be a party to such an outrage upon the city for the benefit of a corporation. Either the company expected that the ordinance would be amended in many parts before

being adopted, or else they intended to press it to adoption by undue influence.

Sections 6 and 9 give evidence of some curious design in this ordinance that I am unable to fathom. Section 6 says nothing about electricity, but dictates the distance from the surface and from water or gas mains, that pipes or conduits shall be laid, while section 9 gives the same exact requirements, but dictates that the wires authorized to be laid shall be for conveying electricity.

Certainly if there is no dodge intended both sections are not needed.

Section 10 is a complete farce intended to blind your Honorable Body with the idea that they are actual penalties provided. Section 11 is as vitriol thrown into your eyes. All ordinances are "binding" upon the city the moment they become operative, and if there is anything at all valuable to the company in the peculiar language here used, it is intended that this ordinance shall be and become a perpetual contract with the company beyond your power of alteration or repeal.

I do not know that the object will be accomplished by the provision; it is a question of law too deep for me, but that is the evident object. You will readily understand that with such an irresponsible contract the company can lease its rights for a large sum for many different purposes not intended by your honorable body. It cannot be possible that it was intended to grant the rights and powers given away in this ordinance beyond your power of recall, control or amendment. I am then rather inclined to believe that the plausible, ingenious, dangerous and wonderful provisions of the ordinance, have escaped that careful consideration it is the province of your honorable body to give to matters of this magnitude. In conclusion I beg to state that it seems to me that we should deal fairly with this company. The wires and poles now in actual use should be allowed to stand, although erected without any authority. But the company should be required to place all extensions under ground, and after a reasonable time to place its present sources under ground. It might be given one year in which to do that. No permission is granted to these companies, in any large city, to string new wires overhead, and in some cities the wires already in use have been ordered underground. They are a constant menace and danger in case of fire, and we should not permit any further overhead service extensions. A simple, and fair, and honest ordinance could easily be prepared, giving this company all it needs for its own purposes, embodying the suggestions above made, and one that no fair mind could fail to approve, but the present ordinance is not honest, it is unique. It is the most ingenious piece of crazy patch-work of surprises I have ever seen in so few words, and I do not see how any member of your honorable body can vote for it after attention has been called to its powers and omissions.

These are some of the reasons that have prevented me from giving it my approval.

Very respectfully,

Your obedient servant,

ORESTES CLEVELAND.

Alderman O'Rourke moved, that fifty copies of the message be printed on slips for the use of the Board. The motion was adopted by the following vote, the yeas and nays having been ordered and taken on the call of the President:

Yeas—All the members present, eleven in number. The City Clerk laid before the Board the following communication from his Honor the Mayor, filed in the City Clerk's office on the 1st inst., at 10 o'clock a. m., and the same was read, received, and on motion of Alderman Reardon, ordered to be entered on the minutes.

MAYOR'S OFFICE,
JERSEY CITY, N. J., Sept. 30, 1887.

To the Board of Aldermen:

Gentlemen—An ordinance entitled an ordinance to authorize the Jersey City and Bergen Railroad Company to lay tracks in certain streets in Jersey City, is herewith returned without my signature. There are many objections to this ordinance. It must be admitted that the present street railroad companies have a complete monopoly of the streets of this city guaranteed to them by a new law passed by the Legislature of 1886. It is a law entitled "An act to provide for the incorporation of street railway companies and to regulate the same," but it is in fact a law to prevent any street railway from ever being built in New Jersey by any new company; such restrictions are put upon new companies, as to make it morally impossible to organize under the law and construct and operate a street railroad, but with a cunning characteristic of railroad legislation the act authorizes companies already in existence that have restrictions, liabilities and penalties in their charters, to come under the provisions of the new act "and to be free from the liabilities and provisions of the act or acts under which they were formerly incorporated," so that while new companies will be liable to obstructions that make it impossible for them to operate, the old companies

are freed from all the restraints that exist in their present charters. No razor could cut the cords that now restrain railroads from absolute freedom with a keener edge than this act. I respectfully suggest that members of your Honorable Body shall read this ingenious law, and demand its repeal at the next session of the Legislature.

It is in fear of such a repeal out of the organization of a competing company that the Jersey City and Bergen Railroad Company ask for this ordinance. They do not intend to construct a street railroad on First street, at least not for the present. That is the very street the Pennsylvania R. R. Co., which controls the J. C. & B. R. R. Co., has been threatening to carry their road through to a new ferry. Either the J. C. & B. R. R. Co. has no intention of putting tracks down First street or the threats made by its owners heretofore were schoolboy threats.

Neither does the J. C. & B. R. R. Co. intend to lay tracks at present on Henderson street. The real and only object is to get the right in order to keep any other party out hereafter. When we ask for more cars on the present tracks in order that the public may be accommodated, we are met with the objection that the company cannot afford it. If the company can afford to run cars often on its present tracks, where they are so loaded that the people cannot get standing room on the steps now, how can the same company afford to build and equip an extension that has no element of profit in it at present. I trust your Honorable Body will put a check to this grasping monopoly.

If the J. C. & B. R. R. Co. wants a further concession, let it show itself worthy of the confidence of our people by giving them a chance to present tracks.

On the Newark avenue and Montgomery street lines cars should be run during the morning and certain afternoon hours as often as every three minutes. The growth of this city is impeded and has been so impeded during the past twenty-five years by lack of facilities for travel. The fact is so notorious that it needs no further comment, and I trust that before your honorable body grants any additional streets to the tracks of this company, that it may be compelled to give the people a chance to travel with reasonable facility.

A great objection to this ordinance also is the entire absence of requirements and restrictions. It is not enough to say subject to the restrictions of existing ordinances; the limits and restrictions should be in this ordinance fully set out. If rails are to be laid in a paved street, they should be of the least objectionable pattern and laid and maintained in the least objectionable manner, but here is no restriction whatever. Will the company take old rejected rails, of a pattern that never ought to have been laid at all, from other streets, and lay them in places in First street and Henderson street so as to "occupy" the street, but not to use it? Such an occupation of a street would get possession of it, but would be a great obstruction to travel by vehicles. Any street car track is bad for other travel, and we should demand that any new tracks laid should be laid under such restrictions as would cause the least possible obstruction. These are some of the reasons why I object to this ordinance, and I trust your Honorable Body will not hastily surrender these streets as contemplated therein.

Very respectfully, your obedient servant,

ORESTES CLEVELAND.

On motion of Alderman O'Rourke, fifty copies were ordered printed on slips for the use of the Board.

OFFICERS' COMMUNICATIONS.
The City Clerk laid before the Board the following communication from his Honor, the Mayor, filed in the City Clerk's office on the 7th inst., and the same was read, received, and ordered to be entered in the minutes:

MAYOR'S OFFICE,
JERSEY CITY, Oct. 3, 1887. }

To the Board of Aldermen:

Gentlemen—A resolution passed by your Honorable Body consolidating two precincts, or election districts, in the First Assembly District, is herewith returned with objections.

"The only law now in existence authorizing the consolidation of precincts or election districts is the law of 1880, and that requires that the consolidation or alteration of lines shall be made "at any time prior to the first day of August in any year."

Other acts authorize the division of precincts, but no other act authorizes the consolidation of two precincts. It is plain, therefore, that this resolution is against a clear provision of law, and is beyond your power at this time. If this change were made now, the election would be illegal. Very respectfully, your obedient servant,

ORESTES CLEVELAND.
MAYOR'S OFFICE,
JERSEY CITY, Oct. 3, 1887. }

To the Board of Aldermen:

Gentlemen—I herewith return with objections, a resolution intended to divide a precinct in the Fifth Assembly District.

I respectfully call your attention to the election laws of 1879, 1881, 1881 and 1885, wherein you will find that such action must take place before the first day of August in any year, and must be filed in the office of the County Clerk, so that it is out of your power to divide any precinct at this time. That provision was wise and proper. It prevents any such hasty action as that contemplated by the resolution at the last moment before an election, but gives ample public notice, in order that voters may become familiar with the lines and boundaries of voting precincts long before the time for an election to take place. Under this resolution the election would be clearly illegal.

Very respectfully, your obedient servant,
ORESTES CLEVELAND.

Report of P. J. O'Neill, Inspector of Buildings, for September, 1887, and asking the co-operation of the

Board in enforcing section 5 of the ordinance passed August 5, 1886, requiring permits for erection of buildings, &c., was presented, received and ordered filed.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the board the following communication from His Honor the Mayor, filed in the City Clerk's office, March 3, 1888, and the same was read, received and ordered to be entered in the minutes:

MAYOR'S OFFICE,
JERSEY CITY, N. J., March 2, 1888. }

To the Board of Aldermen:

Gentlemen—A resolution of your Board granting a license to Henrietta Thiele to sell liquor at 349 Fourth street, is herewith returned. Henrietta Thiele is not a widow, as some members of your Board have been led to believe. The place has not been orderly, and there is no reason for believing that it will become so under her management. I question, and have always questioned, the propriety of granting licenses to women to sell liquor, but in this case it is especially out of all decency. If she has represented herself to be a widow I beg to call your attention to the fact that I am informed that her husband keeps another saloon in Porter street, near the Five Corners. She acknowledges that she was married when she paid her license fee to the City Clerk. Her son kept the place before her, and it was a disorderly house. It was the promiscuous resort of men and women, and I submit that the license should be refused.

Very respectfully, your obedient servant,

ORESTES CLEVELAND.

The City Clerk laid before the Board the following communication from His Honor the Mayor, filed in the City Clerk's office on the 10th inst., and the same was read, received and ordered to be entered on the minutes:

MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, N. J., March 10, 1888. }

To the Board of Aldermen:

Gentlemen—The resolution passed by your Board authorizing the leasing of the present room for the First District Court for another year, at six hundred dollars, is herewith returned without my signature. The room is not suitable, as the law requires, for a court room. It is noisy, dusty and dark for that use. It is a splendid location for some kind of business, but it seems to me that the city can do better for a court room, and I respectfully suggest that the committee try again. A petition from Williams & Cowles, Collins & Corbin, James Flemming and other prominent lawyers for a change of location, is also enclosed.

Very respectfully, your obedient servant,

ORESTES CLEVELAND.
